

DuraPack® 5000

High-Compaction Rear Loader

DuraPack® 5000

The unrivaled workhorse of the industry.

With over 20,000 built and nearly 30 years of reliability, Heil's **DuraPack 5000** high-compaction refuse vehicle has become the mainstay of collection fleets, from small independent haulers to the world's largest municipal fleet.

Engineered to last. The **DuraPack 5000** features Heil's DP body, the only fully welded, interlaced subframe in a refuse collection truck. With formed channels for extra strength, high tensile strength steel to maximize performance at a minimum weight, and full welding for superior resistance to corrosion and cracking, the **DuraPack 5000** is a sturdy package with the stamina to absorb years of tough hauling.

Outstanding weight distribution. But our engineers still weren't satisfied. Their search for perfection led them to discover a way to create outstanding weight distribution and reduce wear

on rearward chassis components. They incorporated a high cylinder mount into a compact design with a short overhang to maximize forward loading of both the body and the payload.

Easy to operate. The **DuraPack 5000** is as functional as it is durable. Operators around the world appreciate the convenient one-handed manual packing controls that enable them to stop, start, or reverse either the upper panel or the blade at any point in the packing cycle. With a simple two-step cycle that reloads in just 6 to 8 seconds, and a complete cycle time of 16 to 18 seconds, it gets them through their routes quickly. (Cycle time varies based on pump application.)

To add the **DuraPack 5000** to your fleet, contact your local Authorized Heil Dealer. To find the Dealer nearest you, visit www.heil.com.

Reliable Real Loader Performance

The **DuraPack® 5000** was specifically designed to maximize your time on daily collection routes.

- **Solid Foundation** — The interlaced subframe provides exceptional strength and durability, which means your DuraPack 5000 will enjoy a long lifespan.
- **Time-Saver** — The DuraPack 5000 features a flat, abrasion-resistant steel floor, which eliminates the messy job of cleaning trash buildup out of dirty troughs.
- **Frame-Mounted Oil Tank** — Filter maintenance is easy with an oil tank that is mounted on the frame and includes standard sight gauge and in-cab filter bypass monitors.
- **Superior Filtration** — Our 3-micron filtration system keeps oil cleaner and extends the life of hydraulic components. Other manufacturers use 10-micron filtration, which can allow particulate matter to damage the hydraulic system.
- **One-Handed Manual Packing** — Convenient one-handed manual controls stop, start, or reverse the upper panel or blade at any point in the packing cycle.

Visit www.heil.com to learn more about how Heil refuse collection vehicles are making a difference around the world.

High-Capacity Hopper

The generous 3.94 cubic yard hopper can accommodate large items with ease, and requires less cycling on the route.

Durability and Longevity

Our exclusive fully welded, interlaced subframe provides exceptional longevity, while resisting abrasion, corrosion, and salt damage. The body is constructed of 7- to 8-gauge high tensile strength steel, while the hopper features 5/16-inch thick AR400 steel on the floor and 3/16-inch thick AR400 steel on the sides for superior strength and durability.

More Packing Power

Heil's Linkage Packing System is a proven performer. It has no rollers, slides, or slide shoes to wear out. Smaller cylinders deliver considerably more packing power for increased payloads.

Service Smart™ Side Door

Our Service Smart™ design simplifies routine maintenance and keeps you away from the shop and out servicing your customers — and making money. The side door provides easy access for common maintenance tasks.

Purchase your Heil unit through NJPA®

National Joint Powers Alliance (NJPA) has awarded Environmental Solutions Group (ESG), of which Heil is a part, a nationally bid contract for "Solid Waste and Recycling Collection Equipment with Related Equipment, Accessories, and Supplies."

Through the ESG contract (#060612-ESG), NJPA Members can purchase any of ESG's line of refuse and recycling equipment, including Heil front-loading, side-loading, and rear-loading refuse collection vehicles and roll-off hoists directly, without having to create an RFP and send the project through a duplicate bid process. By using the existing nationally bid contract, Members can receive the products they need more quickly and cost effectively.

Best of all, membership in NJPA is free! Qualified agencies can join online via the NJPA website at www.njpacoop.org.

To find out more about purchasing Heil equipment via the ESG NJPA contract, please contact your local Heil Dealer.

Trust Heil Certified OEM and aftermarket parts

Heil Certified OEM parts are the most reliable replacement parts for Heil refuse collection vehicles. They're made following the exact specifications and production processes on the same assembly lines as the parts originally installed on the bodies. This means that they fit perfectly every time. Heil uses only the highest-quality materials for parts that last — minimizing costly downtime. For more information on parts, please call **800.528.5308**.

Rely on experienced local support

When you buy from Heil, you gain the aftermarket support of the industry's strongest network of dealers in North America. We stand behind our products, so you get the support you need for the life of those products. Our dealers are also trained to help you find the best product for your particular route needs.

To find the dealer nearest you, visit our website at www.heil.com and click on "Dealer Locator."

Rent a Heil unit from Big Truck Rental

There are many reasons why renting your refuse trucks may be the perfect solution compared to purchasing vehicles for your fleet. Heil is pleased to partner with Big Truck Rental to offer short- and long-term rental options on our most popular refuse collection models, including front loaders, rear loaders, automated side loaders, and roll-off hoists.

Call your local Heil Dealer for more information or visit www.bigtruckrental.com.

FEATURING 

Choose your DuPont® finish

Proven paint process

At Heil, we recognize that a quality paint finish requires a quality process and application. We have reviewed and refined our paint procedures to fully utilize the optimal characteristics of the paint and provide the finish and durability expected of Heil products. Heil uses a detailed process which includes:

1. Body surface prep
2. Joint sealer
3. Component powder-coating
4. Undercoating
5. DuPont paint

DuPont is the leader in commercial finishes, and Heil proudly uses DuPont primer and paint on all our refuse collection vehicles. Our priming and painting processes provide optimal adherence, durability, and corrosion resistance.

Count on the Lowest TCO

Refuse and recycling collection vehicles are our passion, and we apply tremendous resources to advance our product and service offerings to improve the profitability of your business and provide the lowest Total Cost of Ownership and the maximum return on your investment. You can be confident that choosing Heil equipment brings a long-term partnership with the industry leader.
